Shredding confidential information is strongly recommended. According to the IdentityTheft.org, the number of identity theft scenarios in the US is nearly 3 times higher than that of other countries. Consumers aged 30-30 were the most victimized, followed by those 40-49. People need to safeguard their personal information. Credit monitoring and identity theft restoration services do exist. More information relating to those services can be acquired through a Prevail Bank professional.

Prevail Bank is a community bank that is continuously looking for ways to give back, support those pursuing dreams, and make things better in central Wisconsin.
